ABOUT ME

I have been developing systems and databases for a long time. But when I learned about React I knew I was hooked into the world of software development. But software development has never been "just a job" for me, it's offered with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

Below you'll find project I've completed that showcase my skills and general background in developing software.

PROFESSIONAL EXPERIENCE

React Developer – Projects

Movie Web React App - https://bit.ly/3Jdt0xU

Based on other apps like Netflix, this application was designed in HTML, CSS, JS and React code. Used Hooks like useState, useEffect, useNavigate, used React Router. Received data from API, also it manipulated DOM elements to output the app onto an HTML canvas element.

Relies on both event handling and the use of objects.

Portfolio React App - https://bit.ly/37fz3ER

First application designed in HTML, CSS, JavaScript and React. Used props. Received data from local JS file. It manipulated DOM elements to output the app onto an HTML canvas element.

E-commerce React App (still in progress)- https://bit.ly/3DHpmLD

E-commerce store application was designed in HTML, SASS and React code. Used Hooks like useState, useEffect, useContext also used React Router.

Relies on both event handling and the use of objects.

Database Administrator / T-SQL Developer

Kosovo Grameen Missione Arcobaleno Microcredit Fund, 2017-Present

- Managing data management of Banking Systems (DBMS SQL Server).
- Developing high-transactions financial software feature using SQL Server and object - oriented methods.
- Writing database layers using stored procedures in SQL Server 2012/2014.
- Creating complex query definitions that allow data to be extracted.
- Setting up and testing new database and data handling systems
- Monitoring database efficiency.

SKILLS

HTML

CSS

SASS

JavaScript

React

T-SQL

EDUCATION

Bachelor of Computer Science,
South East European University, Tetovo, Macedonia (2009-2012)

IT Administrator

Elkos Group sh.p.k, 2014–2017

- Proficiency in SQL, and writing queries in the Query Designer to create report Queries.
- Developed a database maintenance plans to set up core maintenance tasks to make sure that database performs well, is regularly backed up in case of system failure and is checked for inconsistencies.
- Monitored and solved database performance issues.
- Install, upgrade new versions of database and tools that access database.
